PROJECTS / OPEN-SOURCE

Django E-commerce Shop | Link   *Python, Django, Html, Css, Javasript, Stripe, redis, rabbitmq,celery*

Django-based E-commerce shop is a feature-rich web application that allows users to browse, shop, and make secure payments.

Bookmark Social Web-App | Link   *Django, javascript, Html, Css*

Developed a sophisticated social website for a seamless user experience, featuring a bookmarklet with JavaScript, asynchronous actions, and infinite scroll pagination. Implemented many-to-many relationships, user follow/unfollow actions, and a generic activity stream application. Mitigated duplicate actions in the activity stream and optimized performance using select_related() and signals for denormalizing counts.
